An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: Applicant's arguments filed 01/27/06 are persuasive to show that the pending claims comprising at least n-doped gates of PMOS and NMOS transistors that are placed over a first and second metal-containing material, wherein the first metal containing material is greater than 20 angstroms and the second metal containing material is less than or equal to 20 angstroms are not anticipated nor obvious over the prior art of record

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
